Silsby Lake Lodge

Mickey & Kip-- Here is the check I owe you for our stay at your lodge. We all had an excellent time and we all caught some great Northern Pike. The 'catch and release' program is the only way to go. It assures the lake of steady breeding stock and trophy fish for everyone.

I watch a fishing program on Saturday with several regular "pro" fisherman and they all use a treble hook to multi-treble hooks--these guys should get with the program and go with the single hook. They will catch just as many and will do less damage to the fish. And they think they are sportsman.

I look forward to the show next year at Pheasant Run in West Chicago. I will stop by and stay hello. This is the first time in many years that I have found a lodge that I can recommend because it does what they stay--catch record Northern.

Thanks again,

Jim Donovan
